

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The
Journal of Infectious Diseases

Published by the Memorial Institute for Infectious Diseases

EDITED BY
LUDVIG HEKTOEN AND EDWIN O. JORDAN

IN CONJUNCTION WITH
FRANK BILLINGS F. G. NOVY
W. T. SEDGWICK H. GIDEON WELLS

Volume 19
1916

Chicago, 1916

TABLE OF CONTENTS

NO. 1, JULY, 1916

	PAGE
A study of various methods for determining the virulence of diphtheria bacilli	
<i>John A. Kolmer and Emily L. Moshage</i> - - - - -	1
A study of acid-production by diphtheria bacilli	
<i>Emily L. Moshage and John A. Kolmer</i> - - - - -	19
The relation of the carbohydrate-splitting ferments to the soluble toxins of diphtheria bacilli	
<i>John A. Kolmer and Emily L. Moshage</i> - - - - -	28
The protein-sparing action of utilizable carbohydrates in cultures of certain sugar-fermenting organisms	
<i>Horry M. Jones</i> - - - - -	33
The antigenic value of <i>Spirochaeta hyos</i> in complement-fixation tests on hog-cholera sera. Studies on hog cholera	
<i>Walter E. King and R. H. Drake</i> - - - - -	46
Observations on the production of antibodies after antityphoid inoculation	
<i>Katharine Howell</i> - - - - -	63
The effect of benzene on the production of antibodies	
<i>Ludvig Hektoen</i> - - - - -	69
The time relations of the infiltrating cells in acute anterior poliomyelitis	
<i>A. E. Taft</i> - - - - -	85
Yeasts, probably pathogenic, in throat cultures	
<i>Arthur L. Grover</i> - - - - -	89
Observations on phagocytosis and leukocytic activity in diphtheria-carriers	
<i>Ruth Tunnick</i> - - - - -	97

NO. 2, AUGUST, 1916

Studies in the nitrogen metabolism of bacteria	
<i>H. J. Sears</i> - - - - -	105
Myxoma-like growths in the heart due to localization of <i>Spirochaeta pallida</i> (Plates 1 to 4)	
<i>Aldred Scott Warthin</i> - - - - -	138
Further study on experimental cholera-carriers	
<i>Otto Schöbel</i> - - - - -	145
Bacteriologic findings in ozena	
<i>Herbert C. Ward</i> - - - - -	153
A comparative study of colon bacilli isolated from horse, cow, and man	
<i>T. J. Murray</i> - - - - -	161
Immune reactions in scarlet fever	
<i>George F. and Gladys R. Dick</i> - - - - -	175
Anaphylaxis reactions between proteins from seeds of different genera of plants. The biologic reactions of the vegetable proteins, VII	
<i>H. Gideon Wells and Thomas B. Osborne</i> - - - - -	183
Cases of generalized fatal blastomycosis, including one in a dog	
<i>Cleveland C. MacLane</i> - - - - -	194
Application of the pure-line concept to bacteria	
<i>L. J. Cole and W. H. Wright</i> - - - - -	209

	PAGE
Different types of streptococci and their relation to bovine mastitis	
<i>George Mathers</i> - - - - -	222
Hemolytic streptococci found in milk. Their significance and their relation to virulent streptococci of human origin	
<i>David John Davis</i> - - - - -	236
Nonspecific reactions obtained with antigens made from bacteria grown on serum media	
<i>Peter K. Olitsky and Eugene P. Bernstein</i> - - - - -	253
Bacillema in tuberculosis as shown by examination of postmortem clots from the heart	
<i>Unity Fletcher Wilson</i> - - - - -	260
Tubercle bacilli in the heart clots in acute miliary tuberculosis complicating chronic lymphatic-myelogenous leukemia	
<i>Robert R. Dieterle</i> - - - - -	263
A multiple pipet for the complement-fixation test	
<i>John M. Buck</i> - - - - -	267

NO. 3, SEPTEMBER, 1916

Comparison of a rapid method of counting bacteria in milk with the standard plate method	
<i>William Dodge Frost</i> - - - - -	273
Adaptation to certain tensions of oxygen as shown by <i>Gonococcus</i> and other parasitic and saprophytic bacteria	
<i>William B. Wherry and Wade W. Oliver</i> - - - - -	288
<i>Leptothrix innominata</i> (Miller)	
<i>William B. Wherry and Wade W. Oliver</i> - - - - -	299
Remarks on the filterability of <i>Bacillus bronchisepticus</i>	
<i>William B. Wherry</i> - - - - -	304
A new model of double pipet holder and the technic for the isolation of living organisms	
<i>F. Hecker</i> - - - - -	306
Complement-fixation in tuberculosis	
<i>H. J. Corper</i> - - - - -	313
Studies on acquired typhoid immunity	
<i>F. W. Hachtel and H. W. Stoner</i> - - - - -	322
The causation of gastric and duodenal ulcer by streptococci (Plates 5 to 14)	
<i>Edward C. Rosenow</i> - - - - -	333
Studies on forage poisoning	
<i>Robert Graham and L. R. Himmelberger</i> - - - - -	385
Spontaneous amebic dysentery in monkeys	
<i>Adolph Eichhorn and Bernard Gallagher</i> - - - - -	395
The strength and composition of blackleg vaccines	
<i>O. M. Franklin and T. P. Haslam</i> - - - - -	408
The bacteriology of the urine in lobar pneumonia	
<i>George Mathers</i> - - - - -	416
The pathology of dermatitis venenata from <i>Rhus diversiloba</i>	
<i>James B. McNair</i> - - - - -	419
The transmission of rhus poison from plant to person. <i>Rhus diversiloba</i> T & G	
<i>James B. McNair</i> - - - - -	429
The refinement and concentration of antitoxins	
<i>P. G. Heinemann</i> - - - - -	433

TABLE OF CONTENTS

vii

	PAGE
The cytology of the exudate in the early stages of experimental pneumonia (Plates 15 and 16)	
<i>Frank A. Evans</i> - - - - -	440
Agglutinins in hog-cholera immune serum for <i>Bacillus suispestifer</i>	
<i>Heinrich Wehrbein</i> - - - - -	446
Colloidal chemistry and immunology	
<i>Mentz von Krogh</i> - - - - -	452
Studies on experimental scurvy in guinea-pigs	
<i>Leila Jackson and J. J. Moore</i> - - - - -	478
Bacteriologic studies on experimental scurvy in guinea-pigs	
<i>Leila Jackson and A. M. Moody</i> - - - - -	511
Lesions in rabbits produced by streptococci from chronic alveolar abscesses	
<i>A. M. Moody</i> - - - - -	515

NO. 4, OCTOBER, 1916

The etiology of cholecystitis and gallstones and their production by the intravenous injection of bacteria	
<i>Edward C. Rosenow</i> - - - - -	527
A modification of Römer's intracutaneous method for the determination of small amounts of diphtheria antitoxin in blood sera	
<i>Abraham Zingher</i> - - - - -	557
Diphtheria bacilli in microscopical sections of tonsils from diphtheria- carriers	
<i>Mary Wilmarth Brown</i> - - - - -	565
The attenuation of hog-cholera virus	
<i>Daniel J. Healy and Edwin J. Gott</i> - - - - -	569
The specificity of streptococci	
<i>Arthur T. Henrici</i> - - - - -	572
The correlation of certain reactions of colon bacilli and like organisms with source	
<i>Florence Hulton</i> - - - - -	606
The fate of the mammalian tuberculosis bacillus in sparrows and chickens	
<i>L. Van Es and A. F. Schalk</i> - - - - -	614
Experimental epidemiology in tuberculosis	
<i>A. Distaso</i> - - - - -	628
Immune reactions in scarlet fever, II. Antigenic properties of bacteria found in scarlatina	
<i>George F. and Gladys R. Dick</i> - - - - -	638
The presence of soil and fecal strains of organisms of the colon-aerogenes group in the waters of Kansas	
<i>Myrtle Greenfield</i> - - - - -	647
The milking machine, a source of bacterial contamination of milk	
<i>Gustav F. Ruediger</i> - - - - -	652

NO. 5, NOVEMBER, 1916

The specificity of the Abderhalden reaction with vegetable proteins. The biologic reactions of the vegetable proteins, VIII	
<i>Oscar J. Elsesser</i> - - - - -	655
The complement content of Eck-fistula dogs	
<i>Noble P. Sherwood, Clarence Smith, and Ray West</i> - - - - -	682
The permeability of the gastro-intestinal wall to infection with <i>Sporothrix schenkii</i>	
<i>David John Davis</i> - - - - -	688

	PAGE
The relation of allantoin excretion to leukopenia and leukocytosis in rabbits	
<i>O. H. Pepper</i> <i>Pepper</i> and <i>T. Grier Miller</i> - - - - -	694
A laboratory infection caused by a bovine strain of <i>Bacillus enteritidis</i>	
<i>K. F. Meyer</i> - - - - -	700
Further studies on the virulent salt solution used in the production of hog-cholera serum	
<i>Warren S. Robbins</i> - - - - -	708
The etiology of fibromyoma of the uterus	
<i>Arthur H. Curtis</i> - - - - -	712
A case of anthrax (Plate 17)	
<i>G. G. Reinle</i> and <i>R. A. Archibald</i> - - - - -	718
Comparison of the rate of multiplication of bacteria in raw milk with the rate in pasteurized milk	
<i>P. W. Allen</i> - - - - -	721
Experimental studies with <i>Endamoeba</i> Gros	
<i>F. Hecker</i> - - - - -	729
Culture media for <i>Gonococcus</i>	
<i>Tomomitsu Watabiki</i> - - - - -	733

NO. 6, DECEMBER, 1916

The effect of toluene on the production of antibodies	
<i>Ludvig Hektoen</i> - - - - -	737
Anaphylactic shock in dogs	
<i>J. P. Simonds</i> - - - - -	746
The necessity of a standard blood-agar plate for the determination of hemolysis by streptococci	
<i>Wesley C. Becker</i> - - - - -	754
A study of the agglutination and cultural relationship of members of the so-called <i>Streptococcus-viridans</i> group	
<i>Charles Krumwiede, Jr., and Eugenia L. Valentine</i> - - - - -	760
<i>Streptothrix</i> in bronchopneumonia of rats similar to that in rat-bite fever (Plates 18 to 20)	
<i>Ruth Tunnickliff</i> - - - - -	767
Acid-production and other characters of <i>Bacillus-coli</i> -like bacteria from feces and sewage	
<i>Max Levine</i> - - - - -	773
Relationship between serum reactions	
<i>Heinrich Wehrbein</i> - - - - -	806
The etiology of typhus exanthematicus in Mexico (Tabardillo)	
<i>Peter K. Olitsky, Bernard S. Denzer, and Carlos E. Husk</i> - - - - -	811
Relation of specific precipitation to other immunity reactions	
<i>H. A. Bulger</i> - - - - -	832
